

UoC | Outreach Skills Clinic for Assessment (OSCA) Clinical Skills Workshops

What is OSCA- Clinical Skills Workshops?

It has been identified that non-medical, clinical staff and post-registration professionals are required to achieve and maintain a range of proficiencies and competencies across disciplines and fields.

Using simulation as a learning and assessment strategy, OSCA- Workshops offers participants an opportunity to experience and practise the realities of professional practice and they can book at a time convenient to them to attend a theoretical session, with the opportunity to practice the skill and be formatively assessed.

OSCA- Clinical Skills Workshops aims:

Increase opportunities for participants to consolidate and build confidence and skills

Increase access to simulated learner opportunities to maintain / progress clinical skills and knowledge

Increase networking opportunities

Development of effective compassionate, communication skills, team working and leadership skills to improve patient experience

Breaking down OSCA- Clinical Skills Workshop:

• **OUTREACH**

Outreach Skills Clinics for Assessment (OSCA) provides clinics at a range of sites across Cheshire and Merseyside. This being to offer flexibility to participants so they can book when and where they choose to access OSCA workshops.

• **SKILLS**

OSCA provides opportunities for participants to engage in theoretical and simulated practice learning opportunities to support learning and assessment across a range of clinical learning skills. These include: cannulation, venepuncture and catheterisation.

• **CLINIC**

OSCA-enables participants to access a range of sessions that they can attend by using an online booking system. Participants have the opportunity to book theoretical and practice learning opportunities which can fit around their work and life commitments.

• **ASSESSMENT**

During the sessions, participants will have the opportunity to book and complete a formative assessment, regarding a specific skill. On successful completion of the formative assessment, participants receive a certificate to utilise as part of their CPD portfolio.

What OSCA- Clinical Skills Workshops are available?

- Venepuncture
- Cannulation
- Catheterisation (all genders)
- Nasogastric Tube Insertion and Management

“I just wanted to touch base with you to say a huge thankyou to the team who delivered the training yesterday for our staff

The feedback from all the staff who attended is that they thoroughly enjoyed the day, learnt a lot and feel more confident in the skills that were learnt and re-freshed”.
